

TRION®

Electronic Air Purifier

Console Model

Clean and refresh your indoor air with the Trion Console Electronic Air Purifier.

Removes up to 95% of airborne pollutants such as pet dander, dust mites mold spores and more.

The powerful Console model will clean the air in one large room or several small rooms.

- Perfect for home or office
- Reduces household dust that causes extra housework and can damage home electronics
- Helps protect your family from indoor air pollution
- Easy maintenance and high efficiency
- Includes permanent, washable Forever Filter®
- Whisper-quiet fan circulates fresh, clean air
- Fits into any decor; the size is comparable to an audio speaker at only 12" x 12" x 27 1/2"

**Forever®
Filter**

Clean and Reuse

Clean and Reuse

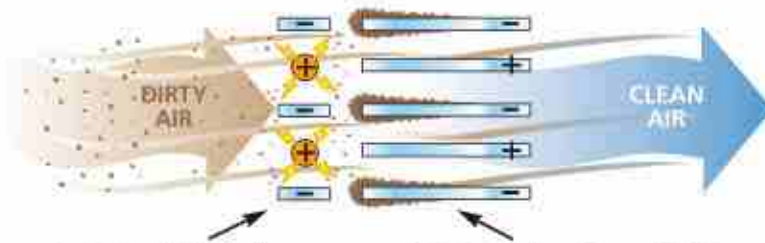

**Superior technology
that pays for itself!**

Trion's exclusive Forever Filter® attracts and captures charged dust and dirt particles on aluminum plates that are simply lifted out and rinsed off in the sink or dishwasher. No expensive filters to replace!

Clean Air for Better Health!

How the Trion Electronic Air Purifier Works

1. Ionizer electrically charges small particles like dust, smoke and pollen.

2. Trion's exclusive Forever Filter[®] attracts and captures charged particles on aluminum plates that are simply lifted out and rinsed off for easy cleaning.

Features

- Removes particles as small as .01 micron
- Removes up to 95% of common airborne pollutants: mold spores, dust mites, dirt, animal dander and much more
- Permanent, washable Forever Filter[®]
- 3 speeds: Low, High and Super Clean
- Deep-cleans rooms up to 350 square feet, 3 times per hour
- Whisper-quiet operation
